College is not only about retaining information and taking tests. It is about expanding the mind to think more openly without judgment, discovering new things and exploring new possibilities that create the art inspired by your dreams. College is an experience to grow and increase your knowledge. Thus I chose the theme of the book, Create,

Discover, Learn.

A student-run publication Magazine

When I took over the magazine i wasn't really sure what to expect. I inherited a magazine that had been the recipient of many awards, so I knew I had some big shoes to fill. I assembled a team of writers and creative minds that I thought would best serve what I had in mind. We got together and came up with an idea to bring a new, fresh face to Piedmont. It exemplifies the angles of stories and issues that may not be already covered. We

search for topics that aren't mentioned a whole lot. We have tried to create a following through our work. We love the responses from the readers both positive and negative. Pick up a copy and lose yourself in the words. - Jeff Peel, Editor

Where Are You From?

I live in Livingston, Scotland. I applied for a scholarship in Georgia and chose Piedmont. The most dramatic change from Scotland to Georgia is the teaching style. However, I do enjoy American football. Jay Canning

I'm a native of Toronto, Canada. I lived there for 16 years. The winters were amazing and the snow made shovelling driveways ok. I then went from the north to the desert in Phoenix, Arizona. The heat was a huge change from what I was used to. I traded in my snow boots for sandals. Jeff Peet

I'm from Quakertown, Pennsylvania. Piedmont offered me a scholarship and I took it. I really like the faculty and staff at Piedmont. They are very nice and helpful. The difference between Pennsylvania and Georgia is the weather and the vernacular. The southern drawl is a lot different from what I'm used to. My favorite things about Piedmont are the student activities. Sasha Ugi

I am from Stillwater, Minnesota. The accent and food here is different from what I'm used to but I do like to hear southern people speak. I was able to come to Piedmont because I was offered a scholarship and heard great things from my brother, Kyle Anderson. Kami Anderson

I'm from Rome, Italy. I have a family that lives nearby in Demorest and I thought I would apply to a college here in Georgia. I've noticed that people in Georgia are friendlier and are more willing to help than in Rome. One thing I enjoy about the U.S. is the all day all night fast food services. However, I would like to see more of the States. Emanuela Curtale

Spotlight on Travel

Janet Peterson

Going to the University of Nottingham was one of the best experiences I have had during college. Just to be able to see all these different cultures and people in one place was amazing. It just felt like everything was more laid back there. There was also the ease of traveling, which was wonderful. To be able to get on a bus and in a few hours be at a place you had never been before was awesome.

Going to class was also an experience. I attended some classes that had more than 100 people while others had less than 20. There were so many choices of classes and they all seemed interesting. Most of all, I will remember all the memories I have from going and if I had the chance I would do it again.

Matt Jackson

Going to the University of Nottingham was the most mind opening experience I had. I met people I would have never met without taking part in this experience. I was able, through my international friends, to learn about and take part in cultures from around the globe. The people I met were the real experience. The country of England is beautiful, but it is the people that I truly miss. Every person I met had a unique impact on my life that I will never forget.

Lydia Scarborough

Costa Rica was one of the best experiences of my life. I met people from all over the world there and made lifelong friends! The country was beautiful and the teachers were so kind! They were patient and used a variety of methods to make learning fun and easy.

I plan on going back this May to study again and also to do an internship. I look forward to getting another opportunity to travel the country and appreciate the rare beauty that can only be found there.

President's Letter

What will you remember about Piedmont?

When you look back at this yearbook in a few years, what will you remember about your experience at Piedmont College?

Will it be memories of waking early in your dorm room and walking across the Demorest campus to that 8 a.m. English class?

Or will it be memories of fighting 5 o'clock traffic in Athens to make it in time to your four-hour M.B.A. class?

Or maybe, if you were enrolled in one of the many graduate education cohort classes, your memories of Piedmont will center on your own local school where you took classes with a group of fellow teachers.

One thing is certain, memories of Piedmont will be different for different groups of students. That is because Piedmont has been redefined in recent years. We are still the small, liberal arts college in the mountains

that perhaps your parents and grandparents knew, but we are more than that. Even at the Demorest campus, the curriculum has changed dramatically with the addition of exciting new programs in theatre, mass communications, and nursing, just to name a few.

At the Athens campus, all students commute, and the emphasis is on career-oriented majors primarily in business, education and criminal justice.

But no matter which "version" of Piedmont you remember, I know that you will all have common memories of our unusually strong faculty; those "Aha!" moments in the classroom when a difficult concept suddenly becomes clear; and the time when you first realize that you—as an individual and as a college graduate—can have an enormous effect on the lives of others.

Those are the memories that I hope each of you take away from Piedmont College. Those are the memories that count.

"THE DARK KNIGHT,"

a sequel to Christopher Nolan's "Batman Begins," shattered box office records with its July release. In just 10 days, the superhero thriller brought in more than \$300 million at the box office, eclipsing the mark held by "Dead Man's Chest" by nearly a week. Filmed in Chicago, the movie's special effects, musical scores and viral marketing added to its allure and mystique. "The Dark Knight" was nominated for eight Academy Awards, including a posthumous nod for Heath Ledger (for Best Supporting Actor as the Joker). Attempting to enhance its Oscar-winning chances and to surpass \$1 billion in worldwide gross, the film was re-released on Jan. 23, 2009.

THE OLYMPICS

meant national pride, athletic competition, pageantry and more. More than 10,000 athletes competed in 300-plus events in 28 sports at 31 competitive venues, many of which had been constructed specifically for the Olympics. An estimated 6.8 million tickets were sold for the various competitions, and the Beijing Olympics was officially the most-watched television event of all time. Through 16 days of coverage, 211 million viewers tuned in to the Olympics on NBC. Among the American success stories were Kerri Walsh and Misty May-Treanor's consecutive golds in beach volleyball, the gold won by U.S. men's basketball team after a disappointing bronze in Athens and swimmer Michael Phelps' eight golds, which brought his lifetime total to 14 Olympic golds.
